8. **Any other comments or questions?** Anything that got better or worse since the last course poll?
Anything else? (Please continue on the back if you want additional space.)

Too many problems on pset 1. Fewer but (possibly) harder problems would have been more fun.

Pset 1 was a bit too long / had too many questions.

Maybe we should get a few days extra for pset 2 e.g. handed out Tuesday and due next Thursday

I missed the previous course poll but would have liked to vote. Are online polls possible?

I appreciate the effort to provide lecture notes. The professor is very prepared and organized, which shows that he is not only very knowledgeable about his field but also wants the students to understand the material as well.

It is difficult to judge regarding suitable time for homeworks. Perhaps it is better to reason about the difficulty in relation to course credits (4 full-time weeks) taking the lectures into account.
