

# Proof Complexity Course Poll November 28

PhD

1. When I fill in these quick course polls I try to answer:

so that my answers look good in case it's not anonymous	as honestly as possible since this is anonymous //	as honestly as possible regardless of anything <del>////</del> //
------------------------------------------------------------	----------------------------------------------------------	-------------------------------------------------------------------------

2. Overall, what do you think about the problems on the first problem set? 5 = much too hard; 3 = just right; 1 = much too easy

*But too many*

1	2	3	4	5
		<del>////</del>	//	

3. Overall, what do you think about the lectures so far? 5 = very interesting; 3 = reasonably interesting, neutral; 1 = not interesting.

1	2	3	4	5
		//	///	////

4. Overall, what do you think about the speed of the lectures so far? 5 = much too fast; 3 = just right; 1 = much too slow.

1	2	3	4	5
		<del>////</del> //		

5. Comparing the lectures so far given with slides or on the board, what do you prefer? 5 = clear preference for slides, 3 = no preference, neutral; 1 = clear preference for lectures on the board

1	2	3	4	5
////	//	<del>///</del>	/	

6. Will you be around for the last lecture on December 19?

Yes, unless something unexpected happens <del>////</del> /	Don't know, 50-50 /	No, I will have left for Christmas break //
------------------------------------------------------------------	------------------------	---------------------------------------------------

7. I am a

Masters student

PhD student or PhD

8. Any other comments or questions? (Please continue on the back if you want additional space.)
